Under-bench AIR CONDITIONING

RV's Motorhomes · Van's

Dreiha In-Air 2.5

VEHICLES UP TO 27 ft

Prepare your vehicle with the built-in air conditioning **In Air 2.5** and you will be able to face the hottest or coldest destinations you can imagine.

The In Air 2.5 has an innovative design. Installs inside the vehicle (*under the bed, sofa, closet, etc*) being **INVISIBLE** since it does not alter the aesthetics or the height of the vehicle. It has a **heat pump**, a **great power for cold** and heat with a **low power consumption**.

In addition, you can **customize air distribution** up to three different points according to the needs of the vehicle.

POWER
COLD HOT

✓ 9000BTU / 9000BTU

VOLTAGE

✓ 115V~/60Hz/1Ph
